Dear Redfield Energy LLC Member,

We are excited to announce that the RE Board has selected Eric Baukol as the new CEO of Redfield Energy and he began on August 15th. Eric, his wife, and four children relocated to Redfield in preparation for the start of the school year. They are excited about immersing themselves in our community. Eric had been working as the Risk Manager at Granite Falls Energy (GFE) since 2010. Prior to joining GFE, Eric was employed as a market analyst for Country Hedging, Inc., a farm marketer for Cargill, and as a location manager for Canby Farmers Grain. Eric holds a B.S. degree in agricultural education and a master's degree in business administration.

Eric brings a great deal of experience in ethanol and commodities as well as fresh perspective and energy to continue our mission to be an industry leader and maximize shareholder returns.

We will continue to work with Eric and the entire Redfield Energy Team through this transition and beyond, to maintain operations and progress on the ongoing projects/endeavors. Please let us know if you have any questions and/or concerns.

If you happen to see Eric in the community, please take a moment to introduce yourself and welcome him and his family to Redfield. We are happy to have him on our Team!

Thank you

Jim Klebsch, Interim CEO
